

Bags, cartridges, and much more

Available in all applications; most manufacturers.

Bags

W.P. Hilts & Company offers an extensive selection of filter bags. We've been supplying quality dust filter bags to the concrete industry since 1970; and at economical prices. Choose your size and style, then visit our website or call us for pricing or to find whatever meets your requirements. Whatever you need, standard materials, such as polyester filament, are used, but other materials are available upon request. W.P. Hilts & Company offers standard bags, available in any quantity; or if your bag is not listed, prices can be quoted. Simply supply a sample and we'll do the rest.

Cartridges

W.P. Hilts & Company supplies our customers with the proper size and quantity for most dust collectors. Visit the website or call us for pricing and availability.

Much more

- Parts for many of the central dust collection systems—whether its solenoid valves or timer boards, we can fill your needs.
- Parts for many baghouses for silos and batchers.

For years W. P. Hilts has been supplying replacement parts for all your needs.
