

Clamshell Gates, Butterfly Valves and More

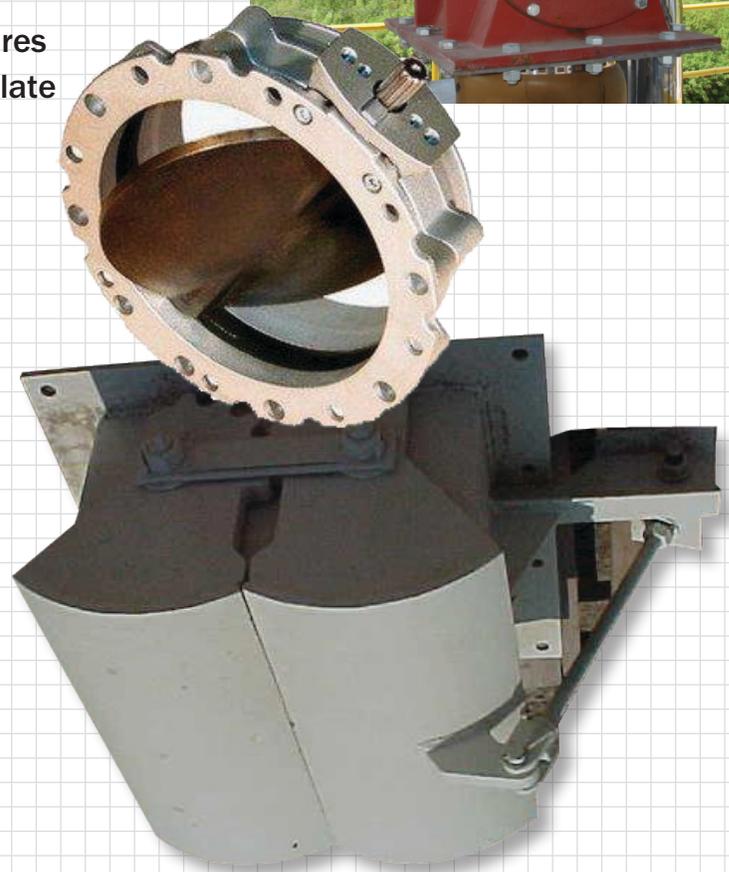

All sizes and shapes available and most brands.

W. P. Hilts & Company has been providing double clamshell gates to the concrete industry since 1970, including **DOUBLE CLAMSHELL GATES** for standard duty or heavy duty, made with mild steel, AR, or other exotic steels.

We offer a variety of gate sizes ranging from 8" to 48". Standard duty clamshell gates features 1/4" plate body, 3/8" plate clams, and 1/2" plate gears. Heavy duty gates consist of 3/8" plate body, 1/2" plate clams, and 1/2" plate gears.

Our **BUTTERFLY VALVES** are specific to silos, hoppers, and screw conveyers containing powders or granular materials.

- Sizes from 4" to 16" diameter
- Single or double flange
- Silo adapters
